

*Association Européenne des Concessionnaires
d'Autoroutes et d'Ouvrages à Péage*

ASECAP, the European Association of tolled motorways, bridges and tunnels operators is pleased to announce that, on the occasion of its 37th Annual Study and Information Days, José Luis Feito has been appointed as new ASECAP President.

Mr Feito, President of the Spanish Association of Tolled Motorways (ASETA), has been unanimously elected by the ASECAP Steering committee for a two-year term (2009-2011).

José Luis Feito (ASETA), Fabrizio Palenzona (AISCAT)

He will take over from Mr Fabrizio Palenzona who has been appointed ASECAP Honorary President.

Mr José Luis Feito stated to be honoured to have been entrusted President by the ASECAP members and thanked outgoing Fabrizio Palenzona for his accomplishments during his presidency, as well as for all the leadership, experience, dedication, and judgment attributes he demonstrated.

Mainly in the new enlarged Europe, the tolled motorway business is becoming a very relevant economic sector and for that reason ASECAP - the sole professional association of the motorway industry in Europe - should ensure the proper continuity in the action lines carried out so far, making the Association a privileged partner of the EU institutions.
