

ASECAP Road Safety Webinar

Building a wide road safety culture to reach Vision Zero goal

*Hosted by Mr Giuseppe FERRANDINO
Member of the European Parliament (TRAN)*

22nd of June 2021 - 9h30 - 11h30 CET

INTRODUCTION

Progress in reducing EU-wide road fatality rates has stagnated as observed by the European Commission. In 2020, number of killed people on the European roads has reached more than 19.000 persons and about 120 000 were seriously injured. Moreover, today road accidents are the leading cause of death for young people.

Faced with this unacceptable reality, a real challenge for our society is: are we able eradicate the plea? **How to build a wide road safety culture involving all the interested sectors?**

The webinar will be the opportunity to actively discuss the topic with all stakeholders: road users, industry, policy makers from the European Commission and the Parliament and road infrastructure operators, with the objective of drawing recommendations which could help to reach vision zero goal.
