## **ASECAP feedback on the draft of the Commission Delegated Regulation amending Delegated Regulation (EU) No 305/2013 supplementing Directive 2010/40/EU**

The draft of the Commission Delegated Regulation amending Delegated Regulation (EU) No 305/2013 supplementing Directive 2010/40/EU has now been published for feedback. ASECAP welcomes the possibility to comment on the proposal and would like to highlight the following points.

In the context of promoting road safety measures, ASECAP emphasizes the efficient transmission of eCall data to National Access Points (NAPs), emergency organizations and road authorities/operators throughout the value chain. The draft Commission Delegated Regulation, which aims to amend the Delegated Regulation (EU) No 305/2013 on eCall Public Safety Answering Points (PSAPs) and to ensure backward compatibility across generations of mobile networks (including beyond 5G), is a key initiative in this regard.

ASECAP's expertise in road safety is invaluable and warrants careful consideration. By prioritizing the seamless flow of eCall data to the relevant stakeholders, we are not only embracing technological progress, but also reaffirming our unwavering commitment to saving lives on the road.

It is imperative that these regulations are formulated with precision and clarity, ensuring that they are seamlessly aligned with the overarching goal of promoting a safer road environment for all citizens. Collaboration and data sharing with all road safety stakeholders will be the cornerstone of our collective efforts to achieve this shared vision.

### **About ASECAP:**

***ASECAP is the European Association of Operators of Toll Road Infrastructures across 18 member countries representing 125 companies employing more than 44.000 direct jobs and 200.000 indirect jobs. They operate, maintain, manage a network of 81.700 km with a long-term vision that ensures highest quality standards to make the road infrastructure safest targeting vision zero fatality and moving toward net zero carbon thank to the user/payer principle providing sustainable financing.***
